

Unframe AI for the Car Wash Industry

PURPOSE-BUILT AI TO HELP YOU STREAMLINE SITES, PREDICT MAINTENANCE, AND DRIVE REVENUE GROWTH

Car wash operators face growing pressure to cut costs, boost uptime, and deliver a seamless customer experience across every site. But fragmented POS, telemetry, and membership systems make it difficult to see performance in real time — leading to delays, downtime, and missed revenue.

With Unframe, you can unify data from POS, sensors, and site operations, monitor performance continuously, and automate decisions around maintenance, pricing, and staffing. The result: faster insights, fewer disruptions, and higher revenue across your entire network.

- ✓ **Operational Efficiency & Cost Savings**
Automate maintenance and reporting while predicting equipment failures before they happen in order to reduce downtime and increase throughput.
- ✓ **Real-Time Visibility & Decision-Making**
Combine telemetry, POS, and membership data into unified dashboards to make informed decisions faster and manage sites proactively.
- ✓ **Customer Experience & Loyalty**
Deliver personalized offers, automate support, and improve member retention through AI-driven insights.

With Unframe, you'll have a production-ready
solution tailored to your needs.
In days, not months.

TOP AI USE CASES IN THE CAR WASH INDUSTRY

→ Predictive Maintenance

Enhance site performance with unified dashboards, predictive maintenance, and real-time sensor insights.

→ Real-Time Performance Monitoring

Unify live and historical data to identify performance trends, forecast demand, and optimize staffing across every wash.

→ Dynamic Pricing & Demand Forecasting

Automatically connect relevant data from point-of-sale systems to enable flexible pricing for various seasonal demands.

→ Customer Support

Automate customer support that resolves routine inquiries, detects site issues, and routes complex cases for fast, informed action.

→ Membership & Usage Analytics

Automatically detect at-risk members, deliver personalized offers, and increase recurring revenue with AI-driven insights.

→ Operational Reporting & Compliance

Auto-generate reports on site performance, water usage, and maintenance logs for improved visibility and audit readiness.

BUSINESS OUTCOMES YOU CAN COUNT ON

Observability & Reporting – Get unified, real-time views across systems with natural language querying, auto-generated dashboards, and actionable insights.

Extraction & Abstraction – Convert unstructured documents into structured insights by identifying entities, clauses, metrics, and meaningful relationships automatically.

Agents & Automation – Deploy agents to automate workflows and execute end-to-end tasks across systems in real time; communicate via Slack, Teams, email, and more.

Knowledge On-Demand – Instantly access specific information, retrieve relevant assets, and answer questions in natural language to empower decision making.

About Unframe

Unframe is the Managed AI Delivery Platform that delivers AI solutions that work — tailored to your business and delivered in days. With Unframe, organizations can turn high-value AI use cases into real outcomes, without sharing data, committing upfront costs, or compromising on results. Unframe is headquartered in Cupertino, California, with a global presence in Tel Aviv and Berlin.
