

# AI-Native Data Extraction & Abstraction

**TURN STRUCTURED & UNSTRUCTURED DATA INTO CLEAN, CONTEXTUAL, AI-READY INTELLIGENCE AT ENTERPRISE SCALE**

## **THE PROBLEM: Critical intelligence is trapped in your documents**

Enterprises are drowning in unstructured content: PDFs, contracts, reports, SOPs, emails, notes, scans, forms, onboarding packets, financials, marketing collateral...the list goes on. But despite heavy investments in document storage and analytics, teams still struggle to use the knowledge inside.

Today's reality - Data continues to be the biggest bottleneck to AI adoption.

- Extraction workflows remain brittle and rule-based
- Models fail when formats, templates, or vendors change
- Human review cycles balloon as exceptions grow
- Regulatory, security, and privacy constraints slow everything down
- AI systems stall because data is unstructured, incomplete, or inconsistent

## **THE SOLUTION: AI-native Extraction & Abstraction at enterprise scale**

Unframe offers AI-native data extraction and abstraction solutions tailored to exact outcomes you need. It extracts, validates, and abstracts information from any document and transforms it into ready-to-use, governed data for actionable insights. Unlike template-based or rule-driven tools, Unframe understands your documents with context.

- ✓ **High-accuracy Extraction**  
Extracts fields, entities, clauses, tables, numbers, metrics, narratives, and relationships across structured, semi-structured, and unstructured documents.
- ✓ **Normalization & Validation**  
Your data becomes normalized across formats, validated against rules and business logic and flagged for exceptions only where needed.
- ✓ **True Abstraction**  
Unframe surfaces patterns, obligations, risks, trends, variances, KPI insights.
- ✓ **Seamless Workflow Integration**  
Outputs flow directly into the tools your teams already use: CRMs, ERPs, Data warehouse, BI etc.
- ✓ **Built-in Governance**  
Every extraction includes audit trails, source traceability, confidence scores, and policy enforcement.

## WHY LEADERS CHOOSE UNFRAME

- **Designed for outcomes:** Get AI-native data intelligence tailored to your workflows and document complexity in days.
- **AI-Native from the ground up:** Understands context, language, variability, and domain-specific nuances across industries - allowing Unframe to handle inconsistent formats, evolving templates, and edge cases.
- **Adaptable when your business needs change:** New document type? Unframe adapts instantly - no rules to rebuild and no service tickets.
- **End-to-end intelligence:** Abstracts insights, connects upstream and downstream systems, and enables search, reporting, and AI reasoning.
- **Enterprise-wide scalability:** From 100 documents a day to millions a month - Unframe handles it with consistent accuracy and performance.

## REAL-WORLD RESULTS FROM GLOBAL LEADERS

### Leading Private Equity Firm

**PROBLEM:**

Portfolio companies submitted financials in inconsistent Excel formats, forcing teams to manually normalize 1000s of rows. Human abstraction caused errors, and previous AI tools failed to meet required accuracy and reliability.

**SOLUTION:**

Automatically extracts and normalizes structured data from unstructured Excel reports with 98%+ accuracy. The solution provides suggestions, confidence scores, and full traceability.

**2B data points processed per Q | 98% accuracy**

### Fortune 50 Global Telecom Operator

**PROBLEM:**

Field technicians and NOC teams operated in disconnected systems, relying on outdated manuals and lacking real-time visibility into performance. Siloed data and workflows slowed rollouts, inflated OpEx, and strained customer experience.

**SOLUTION:**

An AI-powered field and operations platform that unified data and delivered mobile, multilingual guidance for technicians. Leadership gained a real-time operational view, improving rollout speed, reducing costs, and shifting operations from reactive to predictive.

**\$150M+ annual OpEx savings + +9 NPS lift**

## About Unframe

Unframe is the Managed AI Delivery Platform that delivers AI solutions that work — tailored to your business and delivered in days. With Unframe, organizations can turn high-value AI use cases into real outcomes, without sharing data, committing upfront costs, or compromising on results. Unframe is headquartered in Cupertino, California, with a global presence in Tel Aviv and Berlin.
