

Unframe AI for Healthcare

TAILORED AI TO HELP YOU TRANSFORM CARE, INCREASE EFFICIENCY, AND IMPROVE EXPERIENCES FOR MEMBERS AND PROVIDERS

Healthcare organizations operate at extraordinary scale to take care of millions of members, manage complex provider networks, and meet evolving regulations. At the same time, patients and providers demand faster, more personalized service.

With Unframe, you can streamline operations by automating repetitive tasks, uncover insights in vast data sets for faster decision making, and empower more natural interactions. Benefit from tangible impact on satisfaction, compliance, and efficiency from the get-go.

✓ **Efficiency & Cost Savings**

Reduce manual work in claims, documentation, and revenue cycle operations while accelerating authorizations, decisions, and member responses.

✓ **Experience & Support**

Enhance satisfaction for members and providers with personalized, low-friction interactions, while alleviating clinician burden to enable better focus on care.

✓ **Compliance & Outcomes**

Strengthen compliance with continuous monitoring, be audit-ready, and enable better health outcomes by identifying risks early and enabling timely interventions.

With Unframe, you'll have a production-ready
solution tailored to your needs.
In days, not months.

TOP AI USE CASES IN HEALTHCARE

- **Claims Automation & Prior Authorization**
Automate intake and adjudication to deliver faster approvals, lower administrative costs, and fewer disputes.
- **Simplify Billing & Clinical Documentation**
Automatically check codes, create notes, predict denials, speed up payments, and prevent revenue loss.
- **Agentic AI & Workflow Automation**
Deploy AI agents to manage multi-step processes like appeals and referrals to accelerate decisions across operations.
- **Member & Provider Engagement**
Use conversational AI for benefits, claims status, and scheduling to boost satisfaction while reducing call center costs.
- **Population Health & Risk Stratification**
Predict readmissions and complications to enable proactive interventions that lower costs and improve outcomes.
- **Personalized Member Care & Experience**
Deliver tailored care plans, reminders, and education to drive engagement, adherence, and long-term member retention.
- **Compliance, Audit & Risk Monitoring**
Continuously monitor for fraud and compliance gaps to protect against penalties and strengthen trust.
- **Clinical Decision Support & Diagnostics**
Analyze clinical data to flag risks and recommend next best actions, improving care decisions and reducing errors.

BUSINESS OUTCOMES YOU CAN COUNT ON

Observability & Reporting – Get unified, real-time views across systems with natural language querying, auto-generated dashboards, and actionable insights.

Extraction & Abstraction – Convert unstructured documents into structured insights by identifying entities, clauses, metrics, and meaningful relationships automatically.

Agents & Automation – Deploy agents to automate workflows and execute end-to-end tasks across systems in real time; communicate via Slack, Teams, email, and more.

Knowledge On-Demand – Instantly access specific information, retrieve relevant assets, and answer questions in natural language to empower decision making.

About Unframe

Unframe is the Managed AI Delivery Platform that delivers AI solutions that work — tailored to your business and delivered in days. With Unframe, organizations can turn high-value AI use cases into real outcomes, without sharing data, committing upfront costs, or compromising on results. Unframe is headquartered in Cupertino, California, with a global presence in Tel Aviv and Berlin.
