

Unframe AI for Life Sciences

**TAILORED AI TO HELP YOU UNIFY KNOWLEDGE, ACCELERATE R&D,
ENSURE COMPLIANCE, AND ENHANCE COMMERCIAL IMPACT**

Life sciences organizations face multiple challenges: fragmented systems, siloed data, and complex regulatory demands. These obstacles slow research, drive up costs, and limit the speed of drug development and market access.

With Unframe, you can unify scientific, regulatory, and commercial data; automate content-heavy workflows; empower field and medical teams with real-time insights; and optimize commercial operations. The result: faster research, lower costs, and increased compliance.

Increased Efficiency & Scientific Acceleration

Speed discovery and development with unified knowledge discovery and AI-assisted clinical workflows.

Compliance & Regulatory Readiness

Automate submissions, reviews, and audit trails to ensure transparency, accuracy, and maintain regulator trust.

Commercial Excellence & Field Impact

Empower medical and field teams with compliant insights, optimized territory plans, and automated reporting.

With Unframe, you'll have a production-ready
solution tailored to your needs.
In days, not months.

TOP AI USE CASES IN LIFE SCIENCES

→ Unified Knowledge Discovery

Break down silos across ELNs, CTMS, regulatory repositories, CRMs, and publications for fast, explainable answers.

→ AI-Assisted Clinical & Regulatory Workflows

Automate QC checks, metadata validation, and translations for clinical study reports, submissions, and reviews.

→ Intelligent Field & Medical Management

Provide push-button pre-call briefings, automate CRM updates, and recommend next-best actions for MSIs and reps.

→ Planning & Proposal Automation

Streamline territory design, campaign allocation, and RFP responses with AI that can fill submissions with compliant content.

→ Clinical Trial Optimization

Normalize trial data, link drugs and indications, and surface insights that reduce costs and shorten timelines.

→ KOL & HCP Intelligence

Map influence networks, analyze publications and CRM records, and enable compliant, personalized engagement.

BUSINESS OUTCOMES YOU CAN COUNT ON

Observability & Reporting – Get unified, real-time views across systems with natural language querying, auto-generated dashboards, and actionable insights.

Extraction & Abstraction – Convert unstructured documents into structured insights by identifying entities, clauses, metrics, and meaningful relationships automatically.

Agents & Automation – Deploy agents to automate workflows and execute end-to-end tasks across systems in real time; communicate via Slack, Teams, email, and more.

Knowledge On-Demand – Instantly access specific information, retrieve relevant assets, and answer questions in natural language to empower decision making.

About Unframe

Unframe is the Managed AI Delivery Platform that delivers AI solutions that work — tailored to your business and delivered in days. With Unframe, organizations can turn high-value AI use cases into real outcomes, without sharing data, committing upfront costs, or compromising on results. Unframe is headquartered in Cupertino, California, with a global presence in Tel Aviv and Berlin.
