Unframe AI for Consumer Goods

TAILORED AI TO HELP YOU ACCELERATE PRODUCT INNOVATION, BOOST EFFICIENCY, AND DELIVER SUSTAINABLE OUTCOMES

Consumer goods companies face constant pressure to launch products faster, optimize supply chains, and meet evolving regulatory and sustainability standards. At the same time, consumers demand innovation, personalization, and transparency.

With Unframe, you can streamline R&D workflows, surface insights from vast data sets, simulate packaging and formulations, and speed up compliance checks. The result: faster product launches, smarter decisions, and measurable progress toward sustainability.

✓ **Efficiency & Cost Savings**
Reduce manual work in formulation trials, packaging prototyping, and compliance reviews while accelerating decisions and cutting waste.

✓ **Experience & Market Responsiveness**
Enhance consumer satisfaction with faster iterations, feedback-driven improvements, and transparent product data across regions and brands.

✓ **Compliance & Sustainability**
Strengthen compliance by monitoring regulations and ingredient risks, while accelerating progress toward recyclable, compostable, and lower-carbon packaging.

> With Unframe, you'll have a production-ready solution tailored to your needs.
> **In days**, not months.

TOP AI USE CASES IN CONSUMER GOODS

→ **Recipe & Formulation Optimization**
Make a direct impact on time-to-market and cost margins. Identify optimal ingredient combinations, trade-offs, and save time.

→ **Packaging Innovation & Sustainability**
Summarize research and patents, simulate material behavior, and identify recyclable or compostable alternatives faster.

→ **Collaboration & Knowledge Sharing**
Enable R&D, supply chain, regulatory, and marketing teams to share AI modules and insights across brands and geographies.

→ **Regulatory, Allergen & Ingredient Compliance**
Automate extraction of regulations, supplier documents, and labeling laws to flag risks early, avoid delays, and streamline approvals.

→ **Post-Launch Analytics & Iteration**
Ingest consumer feedback, reviews, and usage data; link it to formulations and packaging versions to guide continuous improvement.

→ **Demand & Supply Optimization**
Unify sales, inventory, and external signals for accurate forecasting and production. Reduce stockouts and boost supply chain agility.

TECHNICAL CAPABILITIES YOU CAN COUNT ON

Enterprise-Grade Security – Ensure compliance and data governance for safe, scalable AI adoption with role-based access (RBAC).

Agentic Workflows – Orchestrate multi-step processes like prior auth, appeals, and referrals with AI agents and human-in-the-loop oversight.

Document Intelligence – Extract insights from unstructured notes, claims, and forms to automate adjudication, denials, and compliance checks.

About Unframe

Unframe is the Managed AI Delivery Platform that delivers AI solutions that work — tailored to your business and delivered in days. With Unframe, organizations can turn high-value AI use cases into real outcomes, without sharing data, committing upfront costs, or compromising on results. Unframe is headquartered in Cupertino, California, with a global presence in Tel Aviv and Berlin.
